- Electro hydraulic gangway
- Grill, Oven, fridge, ice-maker, dishwasher
- Fully airconditioned
- LED-TV
- Liferaft
- Watermaker 185 litres per hour
- Bow and stern winches
- Bow thruster
- Stern thruster

General:

With this model, Elegance Yachts has made its official debut in the luxury superyacht sector. It was designed for those who wish to cruise in top-of-the-range style, without forsaking that feeling of intimacy typical of Elegance's yachts. The 54 was designed to maintain the House characteristics, and it has superb, dynamic and sophisticated lines. The exceptional design work performed by the Elegance Engineering is particularly obvious on the flybridge, which represents a combination of styling and spacious luxury. It is an invitation to enjoy sun and sea in conditions of total relaxation. Everything is incredibly detailed, exclusive and comfortable, such as curved seats, the cocktail bar, the settees and the sundeck.

Regarding performance, this Elegance 54 has two latest edition MAN R6-800 engines, chosen in order not to disappoint clients' expectations for this type of super yacht. It is possible to reach a cruising speed of 27 knots, while maximum speed is 29 knots.

The major design effort undertaken by the Engineering Division of ELEGANCE YACHTS can be recognized in wide flying bridge, where the different "islands" constitute an invitation to spend sunny days and relaxing times. Cruising is made more comfortable thanks to a large sofa located near the pilot-house, accompanied by a dinette table. The L-shaped sofa, combined with design bucket seats can seat 8 persons.

A cocktail bar area has been carved out at the back of the fly, equipped with a refrigerator and grill, to enjoy a totally relaxing and refreshing drink. The yacht also provides an enormous swim platform and a very powerful swivel crane that is used for boarding and lunching a large tender. The cockpit was designed to house a large

rectangular table, providing room for 6-8 guests. From the cockpit we enter the large salon, which offers a pleasant area for conversation with a comfortable sofa. The spacious galley is located only two steps down from the salon floor near the main entrance.

The sleeping area will surely surprise the ship-owner and his guests, with its three comfortable cabins and 2 bathrooms with which the Elegance 54 is equipped. Indeed, in our design efforts and the structural solutions we've adopted there are no compromises. As with all yachts in the Elegance product range, the liveability of spaces dedicated to the cabins have been entrusted to architects and engineers with the aim of finding original solutions to ensure comfort during the cruise. This is, indeed, the big difference that makes Elegance yachts really unique and matchless.
