# Description

EN

Highfield Sport 360 aluminium RIB with Honda BF30 outboard and capacity of 6. The Highfield Sport range of high quality boats offers a choice from 3 metres up to 8 metres and combines all of their hull design expertise with a great interior. Nothing has been sacrificed in the design of this range. Top quality materials are the hallmark of what we do and we have not compromised. Hull deadrise angles ranging from 20 degrees on the 3 metre going through to a huge 26 degrees on the 650 and up will give you assurance in the toughest conditions. The additions such as EVA teak throughout, integrated fuel tanks, superb diamond stitched upholstery and bathing platforms on our larger models will allow you to enjoy each day to the maximum. With the impermeable qualities of our aluminium hulls there's no need to worry about gelcoat chips, or putting the boat on a beach or trailer. All Highfield Sport RIBs are easy to tow, launch and recover due to their light weight and integrated davit lifting eyes. The Highfield Sport 360 will not delaminate or absorb water over time, retaining the same agile performance in 10 years time as the day you collected it. Low weight garage tender or runabout - design category C. White tubes in Mehler PVC. NB - library photos may not reflect specification of boat.
