Description

EN

Highfield UL 240 aluminium hull RIB - max engine 6hp. Their light weight make these RIBs a real alternative for those who may have chosen a soft bottom tender in the past but would prefer a hard hull for its performance. Ultralite tenders are roomy and strong, yet light and easy to transport. These little boats can be launched and recovered by a single man and are easy to be transported on a roof rack. You will be impressed by their obvious quality level. The excellence of the finish only compares to the detail of the ergonomics. The simple layout is combined with an uncluttered design and numerous standard accessories complete the picture. Design category C. NB - library photos may not reflect specification of boat.

Machinery: No engine supplied. Morgan Marine have new and used outboard engines in stock. Recommended engine - 4hp. Maximum engine - 6hp. Shaft length - short.

Trailer: Morgan Marine can supply a suitable trailer or launching trolley - at extra cost. Please call 01206 302008 for options and prices.
