Description

With its latest deep-V hull, the **Princess V53** combines exceptional performance and seakeeping with elegance and style. The propeller tunnel, waterline design, and bowsprit incorporate all the latest advancements to deliver comfortable and highly efficient operation at high speeds.

Add to that a generous fuel capacity, and you have a high-performance sports yacht with extended range and fast cruising capability. Below, the intelligent and ingenious design provides spacious and comfortable accommodation with a three-cabin layout, a fully equipped galley, and an elegant saloon featuring a large L-shaped sofa and a dining area with an extendable table and an LCD/DVD TV integrated into the bar.

On deck, the large teak cockpit includes two generous seating areas and a wet bar with an electric barbecue and top-loading cooler, while the aft deck accommodates a triple sunbed and a garage for a tender or jet ski. The helm station features twin sport seats, comprehensive engine instrumentation, and an integrated navigation system with GPS-linked autopilot/chartplotter, while electronic engine controls, a bow thruster, and power steering make maneuvering in tight spaces safe and easy.

Above, the folding sprayhood can be configured fully open, as a bimini, or fully enclosed.

Alternatively, there is an option for an electrically retractable hardtop. With breathtaking performance and a dynamic look, the **V53** is the ultimate boat for those who want to experience the thrill of high-speed cruising in comfort and style.

Description

Additional description

- Self-draining
- U-shaped seating/dining area
- Cockpit lighting
- Cockpit hood and tonneau cover
